

## Task #3

---

***Use the documents and sources provided to help you answer the following questions on lined paper, using full sentences and the Proper Writing Format.***

1. Read through the sources provided, and watch the video. List and describe the symptoms and progression of the plague.
2. What does the image (source #3) show? What are the symptoms that you can see these people have? What do you think the man in the background is doing?
3. Read through source #5. Imagine the point of view of a person living through this time. Describe what they would be feeling (what kind of emotions?) or thinking as they witnessed this horrible plague (especially as it spread so quickly and they had no idea what caused it).

## Task #4

---

***Use the documents and sources provided to help you answer the following questions on lined paper, using full sentences and the Proper Writing Format.***

1. Read the excerpt from Boccaccio's *Decameron* (source #1). What did people do to try to prevent the plague? Were they successful?
2. Read the next excerpt from Boccaccio's *Decameron* (source #2). Describe the various ways that different people reacted to the plague (what did they do? What ended up happening?)
3. Read through the "Cures for the Black Death" (source #3). Which cure do you think made the most sense? (your opinion) Explain why.
4. Look at/read sources #4 and 5. What were flagellants? **Why** did they do what they did (what was their reasoning)?
